## LEARNING OUTCOMES

- ✓ A Personal Framework for Purpose Using the Gift Equation

$$\frac{\text{Gift} \times \text{Joy} \times \text{Impact}}{\text{Fear}} = \text{Purpose}$$

YOUR CALLING    YOUR SIGNAL    YOUR LANE    YOUR EQUATION

- ✓ A Strategy for Overcoming Fear Through the Fear = 1 principle - Students learn to name and neutralize the fear driving disengagement, indecision, and self-doubt — and replace it with the confidence to commit.
- ✓ A Stronger Sense of Identity and Belonging - Students who know who they are stop measuring themselves against who everyone else is becoming. This talk builds a campus culture where every student feels seen, specific, and irreplaceable.
- ✓ The Conviction to Lead Their Own Purpose-Filled Life - Students leave with language for their calling, a renewed sense of direction, and the mindset to make intentional decisions — not just about their career, but about their life.
